Executive Leadership Action Sheet & Workshop Roadmap — Cami Kurtz (Final)

Executive Alignment Strategy, Diagnostic Insights & 6-Week Leadership Blueprint

1. EXECUTIVE DIAGNOSTIC SYNTHESIS (FROM 18 PAGES OF C-SUITE INTERVIEWS)

Diagnostic discovery across the Chief Technology Officer, VP of Product, and VP of People revealed three systemic organizational bottlenecks impeding cross-functional velocity and manager retention.

2. THEME 1: ENGINEERING & PRODUCT DELIVERY SILOS

- Finding: Engineering sprint planning operates in isolation from customer success feedback, resulting in 40% of sprint capacity being re-routed to ad-hoc customer fire drills.
- Strategic Intervention: Transition from monthly output metrics to joint quarterly Objectives & Key Results (OKRs). Embed customer operations leads directly into bi-weekly sprint planning sessions.

3. THEME 2: SALES-TO-ROADMAP FEEDBACK DISCONNECT

- Finding: Regional enterprise sales executives report promising custom features to prospects without engineering architectural feasibility sign-off, driving customer churn at onboarding.
- Strategic Intervention: Institute a bi-weekly Product-Sales Roadmap Governance Council with formal MEDDPICC architectural gates before non-standard features are committed to master service agreements.

4. THEME 3: MANAGER BURNOUT & MID-TIER LEADERSHIP RETENTION

- Finding: Newly promoted team managers spend 18+ hours weekly in unstructured meetings without clear escalation frameworks, driving high attrition among technical leads.
- Strategic Intervention: Establish peer coaching cohorts and roll out standardized 1-on-1 performance review templates and asynchronous decision frameworks.

5. 6-WEEK MODULAR WORKSHOP CURRICULUM

- Week 1: Executive Alignment & Shared Vision Calibration (Half-day intensive with C-suite stakeholders).
- Week 2: Joint OKR Mapping & Cross-Functional Dependency Architecture.
- Week 3: Frontline Delegation & Manager Empowerment Systems.
- Week 4: Eliminating Meeting Bloat & Asynchronous Operating Rhythms.
- Week 5: Accountability Frameworks & 360 Peer Feedback Implementation.
- Week 6: Long-Term Governance Cadence & Executive Retreat Deliverables Review.
