LIZA FACILITY SERVICES · COMMERCIAL PROPOSAL DELIVERABLE

Commercial Facility Maintenance Proposal — Tampa Medical Plaza (Final)

Turnkey Clinical Sanitation & Facility Upkeep for 48,000 Sq Ft Medical Complex

---

EXECUTIVE PROPOSAL SUMMARY

Liza Facility Services LLC is pleased to submit this comprehensive commercial maintenance proposal for Tampa Bay Medical Plaza. We provide turnkey clinical-grade sanitation, daily commercial upkeep, and 24/7 emergency response across all 4 multi-tenant medical office buildings comprising 48,000 square feet.

SECTION 1: CLINICAL ENVIRONMENT DISINFECTION PROTOCOLS (CDC & OSHA COMPLIANT)

- 1.1 Infection Control Standards: Our crews employ dual-bucket microfiber mopping systems, electrostatic disinfectant sprayers, and EPA List N hospital-grade disinfectants certified against pathogenic microorganisms, MRSA, norovirus, and SARS-CoV-2.
- 1.2 Terminal Cleaning: Exam rooms, minor procedure suites, and patient wait areas receive daily terminal cleaning with strict 10-minute wet contact dwell times on all high-touch surfaces (door levers, intake clipboards, phlebotomy chairs, counter surfaces).
- 1.3 HEPA Air Filtration: All upright and canister vacuums utilize true HEPA filtration capturing 99.97% of particulates down to 0.3 microns, maintaining optimal clinical indoor air quality.

SECTION 2: 4-BUILDING PREVENTIVE MAINTENANCE SCHEDULE (DAILY, WEEKLY, QUARTERLY)

- Daily Services (Monday–Friday After 6:00 PM): Complete trash and bio-hazard liner disposal, clinical restroom sanitization, lobby glass cleaning, exam room hard floor disinfection.
- Weekly Tasks: High-dusting of vents and architectural ledges, machine auto-scrub of common corridor terrazzo floors, elevator threshold detailing.
- Quarterly Deep Maintenance: Machine strip and wax of VCT clinical flooring (4 coats commercial grade polymer finish), high-temperature carpet steam extraction.

SECTION 3: CREW DEPLOYMENT & 120-MINUTE EMERGENCY ESCALATION

A dedicated crew of 4 background-checked, OSHA-certified technicians led by an on-site bilingual supervisor will be assigned exclusively to Tampa Bay Medical Plaza. Our operations dispatch center guarantees a 120-minute on-site arrival SLA for plumbing leaks, biological spills, or HVAC condensation emergencies.

SECTION 4: GREEN SEAL CHEMICAL SPECIFICATIONS & SUSTAINABILITY

We strictly utilize Green Seal GS-37 certified neutral cleaners and hydrogen-peroxide based disinfectants that eliminate hazardous VOC emissions, protecting pediatric patients and asthmatic visitors.

SECTION 5: COMMERCIAL PRICING SCHEDULE & AUTHORIZATION

Total Monthly Commercial Retainer: $3,850.00 / month (covers all 4 buildings, routine labor, consumables, and supervisor audits). Firm fixed pricing guaranteed for 24 months.
