Executive Operations Onboarding SOP Manual (4 Key Roles) - Final

Standard Operating Procedures & 30-60-90 Day Ramp Rubrics for Operations Scale

EXECUTIVE OPERATIONS ONBOARDING & GOVERNANCE MANUAL

Terminal Operations & Logistics Platform | People Operations & Governance Standard

This Standard Operating Procedure manual defines the 30-60-90 day ramp rubrics, operational SLAs, and core role scorecards for four critical operational positions. Each newly appointed team member must complete all gated checkpoints to achieve permanent operational sign-off.

ROLE 1: LEAD LOGISTICS DISPATCHER - 30-60-90 DAY RAMP MATRIX

Core Mandate: Direct regional cross-dock trailer routing, enforce driver check-in geofencing, and maintain a 99.4% on-time dispatch SLA across 65 logistics terminal nodes.

Ramp Horizon	Quantitative Metric / KPI	Operational Milestone Objective	Verification Artifact / Deliverable
Day 1 - 30 (Intake)	>= 98.0% On-Time Check-In	Master geofence configuration & Blue Yonder EDI 214 sync	Shadow 40 shift check-ins; pass TMS system exam
Day 31 - 60 (Ramp)	< 12 min Yard Dwell Time	Manage cross-dock routing across 3 multi-terminal nodes	Lead daily driver shift standups; audit dwell logs
Day 61 - 90 (Mastery)	>= 99.4% On-Time Dispatch	Direct emergency storm freight diversions; train new staff	Sign off on regional terminal SOPs; 0 safety breaches

Lead Dispatcher Daily Operational Checklist:

- 06:00 Shift Kickoff: Verify overnight trailer drop counts against inbound EDI 204 manifests; flag delayed line-haul carriers.

- 09:30 Yard Optimization: Audit trailer parking queue; reassign idling tractors to open dock doors to avoid detention fees.

- 14:00 Cross-Dock Coordination: Confirm outbound load consolidation with warehouse staging leads.

- 17:30 Shift Handover: Deliver digitized shift handover log detailing open demurrage exceptions and pending freight diversions.

ROLE 2: CUSTOMER OPERATIONS ASSOCIATE - 30-60-90 DAY RAMP MATRIX

Core Mandate: Frontline terminal support triage, dispatcher Intercom/Zendesk escalations, and carrier platform retention.

Ramp Horizon	Quantitative Metric / KPI	Operational Milestone Objective	Verification Artifact / Deliverable
Day 1 - 30 (Intake)	< 15 min First Response Time	Triage Tier-1 terminal support tickets; memorize network workarounds	Resolve 100 simulated support tickets with >90% CSAT
Day 31 - 60 (Ramp)	> 95% CSAT Score (>50 tkts)	Document weekly terminal recurring bugs; run carrier webinars	Publish 4 knowledge-base troubleshooting guides
Day 61 - 90 (Mastery)	< 2.0 hr Ticket Resolution	Lead QBR operational reviews for Tier-2 carrier fleets	Produce monthly churn risk audit for VP Operations

Customer Operations Incident Classification Matrix:

Ticket Priority	Incident Description	Response SLA	Resolution SLA	Escalation Lead
P1 - Critical	Geofence outage preventing driver gate entry	< 5 Minutes	< 30 Minutes	On-Call DevOps Engineer
P2 - High	EDI manifest sync delay > 15 minutes	< 15 Minutes	< 60 Minutes	Lead Integrations Specialist
P3 - Medium	Individual dispatcher login / SSO failure	< 30 Minutes	< 4 Hours	Customer Operations Associate
P4 - Low	Reporting export or UI cosmetic discrepancy	< 2 Hours	< 24 Hours	Product Operations Analyst

ROLE 3: BILLING & ACCOUNTS SPECIALIST - 30-60-90 DAY RAMP MATRIX

Core Mandate: Terminal SaaS subscription billing, automated ACH reconciliation, and carrier detention fee dispute escrow management.

Ramp Horizon	Quantitative Metric / KPI	Operational Milestone Objective	Verification Artifact / Deliverable
Day 1 - 30 (Intake)	100% Invoice Accuracy	Reconcile weekly Stripe/Paystack billing; audit dunning workflows	Reconcile 65 terminal billing accounts to $0.00 variance
Day 31 - 60 (Ramp)	DSO < 22 Calendar Days	Resolve carrier detention escrow disputes within 48 hours	Implement automated Net-15 ACH debit reminders
Day 61 - 90 (Mastery)	< 0.5% Bad Debt Expense	Automate monthly GAAP ASC 606 revenue recognition schedules	Deliver clean audit package for external CPA review

Billing Workflow Reconciliation Standards:

- Weekly Dunning Cadence: Day 3 post-due automated reminder; Day 7 phone outreach to carrier controller; Day 14 account suspension warning.

- Demurrage Escrow Disputes: Escrow deposits held in segregated FDIC-insured operating accounts pending GPS dwell-time verification.

ROLE 4: ENTERPRISE ACCOUNT EXECUTIVE - 30-60-90 DAY RAMP MATRIX

Core Mandate: Mid-market logistics terminal sales, 3PL discovery scoping, and pilot-to-annual contract conversion.

Ramp Horizon	Quantitative Metric / KPI	Operational Milestone Objective	Verification Artifact / Deliverable
Day 1 - 30 (Intake)	30 Qualified Lead Discovery	Master MEDDPICC qualification and interactive demurrage calculator	Complete 5 mock discovery pitches before Executive team
Day 31 - 60 (Ramp)	12 Pilots in Evaluation	Compress terminal sales cycle from 64 to < 40 days	Deliver $250K in advanced pipeline opportunities
Day 61 - 90 (Mastery)	$450K Annualized ACV Closed	Establish referral partnerships with 2 regional freight brokerages	Maintain >30% win rate on formal RFP submissions

SYSTEMS ACCESS, PERMISSIONS & TOOLCHAIN MATRIX

All operational personnel are provisioned with role-based access control (RBAC) following background clearance verification.

System / Platform	Role 1: Dispatcher	Role 2: Support	Role 3: Billing	Role 4: Sales	Security Protocol
Terminal Yard Engine	Super Administrator	Read / Triage Only	No Access	Demo Sandbox	Hardware FIDO2 Security Key
Stripe & NetSuite ERP	No Access	View Customer Only	Full Administrator	No Access	Enforced IP Whitelisting + 2FA
HubSpot Enterprise CRM	View Terminal Notes	Ticket Link Only	Invoice Link Only	Full Pipeline Edit	Google Workspace SSO + 2FA
AWS CloudWatch / Logs	Dashboard View	Error Query Only	No Access	No Access	Role-Based IAM Session Keys

GOVERNANCE & SIGN-OFF ATTESTATION

Upon completion of the 90-day ramp period, the supervising manager and Chief Executive Officer conduct a formal performance review. Successful candidates transition from probationary to regular full-time operational status.
